DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Specification

2. The abstract of the disclosure is objected to because it is too long. It should be no longer than 150 words. Correction is required. See MPEP § 608.01(b).

Election/Restrictions

3. Claim 13 is allowable. Claims 14 and 15, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among species I-VII, as set forth in the Office action mailed on 09 March 2005, is hereby withdrawn** and claims 14 and 15 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

4. Claims 1-12 and 19-23 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 11 April 2005.

5. This application contains claims 1-12 and 19-23 drawn to an invention nonelected with traverse filed 11 April 2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Allowable Subject Matter

6. Claims 13-18 and 24-27 are allowed.

7. The following is a statement of reasons for the indication of allowable subject matter: The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was the mixing chamber in communication with the first lumen and exit orifice where the mixing chamber has a passageway containing a selectively permeable membrane positioned to selectively pass compounds into the passageway in combination with the other elements (or steps) in the claims.

Conclusion

8. This application is in condition for allowance except for the following formal matters:
- (a) the presence of claims 1-12 and 19-23 non-elected with traverse; and
 - (b) the abstract must be amended.
